

AMERICA II ELECTRONICS[®] Inc.

DMF (DIMETHYLFUMARATE) Statement

America II is an independent distributor of electronic components and does not manufacture the desiccant that it uses in shipping components to its customers. Accordingly, America II is unable to make any representations or certifications to our customers as to the contents or the manufacturing process of the desiccant. However, America II is aware of the European Union's directive, 2001/95/EC effective March 17, 2009 and as a service to our customers, America II has obtained the attached letters from the desiccant manufacturers of the products used by America II which provides information required by the directive. In the future, manufacturers' may provide information on their web sites which America II will endeavor to make available to its customers to assist them in their effort to be compliant with the EU directive. Any information provided by America II to its customers relating to this issue is provided simply as a courtesy by America II and is not intended to be a representation or certification by America II as to the contents or manufacturing process of the desiccant. America II does not add any substances to the desiccant during its handling process.

If you have additional questions concerning America II's position on compliance with the EU directive 2001/95/EC, please contact our Quality Department.
